

**Royal College
of Physicians**

CPD approved development for SAS doctors

The Royal College of Physicians (RCP) provide CPD approved development to support SAS doctors of any specialty, at all stages of their career. Listed below are our most popular programmes for SAS doctors.

Leadership workshops and RCP accreditation

The RCP have launched new leadership training to support healthcare professionals throughout their career. We have leadership training designed to support both new and experienced leaders with an optional accreditation.

1-day CPD approved workshops for doctors starting their leadership journey (with optional RCP accreditation).

> **Fundamentals of self-leadership**

This interactive 1-day workshop aims to empower you to recognise and cultivate your medical leadership potential. Through facilitated interactive discussions and practical activities, the workshop will help you to explore your personal leadership style and how to develop as an authentic leader.

5 CPD credits

> **Fundamentals of leading others**

This workshop is designed to empower you with the essential organisational leadership skills needed to navigate complex healthcare systems, advocate for your team, and champion equality, diversity and inclusion.

5 CPD credits

1-day CPD approved workshops for experienced leaders (with optional RCP accreditation).

> **Developing yourself as a senior medical leader**

This 1-day workshop seeks to empower you as an experienced medical leader and to support you in refining your leadership approach as you transition into senior leadership roles, focusing on self-reflection and personalised development.

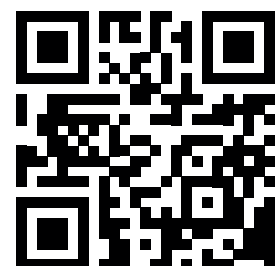

5 CPD credits

> **Leading teams and cultures in senior medical roles**

This intensive 1-day workshop will equip you as an experienced medical leader with the skills to cultivate inclusive workplace cultures within diverse healthcare teams. **5 CPD credits**

Would you like the RCP to come to you?

Our CPD approved workshops can be delivered locally for trusts or organisations, and we can tailor them specifically for SAS doctors. Workshops can be delivered in person at your trust or online to meet your needs. If you are looking to provide local training for SAS doctors, this is a cost-effective approach.

If you or your organisation would like to discuss how the RCP can support with local training, please email consultancy@rcp.ac.uk or go to www.rcp.ac.uk/bespoke-training
