1.8 Data quality & analysis plan	**Asthma and COPD primary care** The primary care audit is a continuous, single point extraction audit. The datasets will be reviewed and streamlined every audit cycle. This will involve consultation (including with patients/carers) and reappraisal of the evidence. Data are extracted directly from general practice electronic systems for all practices within Wales using Read/SNOMED code information. DHCW clean and analyse data before sending to Imperial College London and RCP for review and report writing.
